

Select your podcast track, then select and choose these.

Keep your computer volume at this level. (3 notches from full) If you can't hear your voice, we will make some changes in Garage Band.

Checklist:

- Added and zoomed in on artwork 3 or more times.
- NO gaps in artwork (they should be touching -look at picture #1 below)
- MUST end artwork at the same time as your voice (look at picture #1 below.)
- Added artwork to "Episode Artwork" area
- Listened to podcast. Make sure you hear your voice clearly and it is not too quiet! (we can fix this in Garageband if needed)
- If you used sound effects or musical jingles, make sure that they are appropriate. IF THEY DO NOT MAKE YOUR PODCAST BETTER, DON'T INCLUDE THEM. I WILL NOT PUT UP ANY PODCAST ON iTUNES THAT USES SOUND EFFECTS or JINGLES POORLY. (You are not required to add any jingles)

- Share, Export to disk . . . Export, then Save As: "your title" by your name (first and last). Make sure you save to Desktop. (look at Picture #2)
- Turn in to the 4th grade folder on the doc and then in the Art folder
